

Multichannel Adaptive System Training for micro, small and medium Enterprises

Life Long Learning European Programme

Place: **Tecnopolo Tiburtino – Via Ardito Desio n. 60 – Rome (Italy)**

Date: **Thursday 22 September, 10:00 – 12:00**

System, services and actors enhancing micro and small enterprises strategic and organisational development: sharing experiences and models

The Master European Project (“Multichannel Adaptive System Training for micro, small and medium Enterprises”) kindly invites interested companies and organisation to a round-table focussed on instruments and models for stimulating the start-ups and SMEs’ competitiveness.

The workshop objective is to discuss through a round-table of interested stakeholders and enterprises associations their experience while supporting SMEs in the development phase, sharing their point of view with the invited enterprises and the organisations participating to the event.

The round-table discussion will involve the following actors:

1. **L. Campitelli – BIC Lazio** : *Integrated services supporting micro and small enterprises, start-ups*
2. **A. Bąkowski – SOOIPP** : *The Polish Business and Innovation Centers Association experience for the development at international level*
3. **D. Barricelli – Microimprese.eu** : *Microenterprises competences and training needs. Barriers and opportunities*
4. **V. Dell’Aiuto – Domochannel** : *Technology enhanced learning systems for sectorial networks of micro-enterprises*

During the event Fondazione Università dell’Aquila and Dida Network will briefly present the Lifelong Learning Programme, a European initiative supporting training and enterprises’ development. The meeting shall be moderated from Innova Spa, partner of the Master project and located inside Tecnopolo Tiburtino from the early beginning of the technology park.

All contributions coming from the enterprises attending the meeting will be highly appreciated, so to share a common ground for a common future development.

This project has been funded with support from the European Commission under the Lifelong Learning Programme. This communication reflects the views only of the author, and the Commission cannot be held responsible for any use which may be made of the information contained therein
